

Fleetschool Level Two Certification Program Now Available!

Cummins Filtration is pleased to announce the launch of Level Two of the ***Fleetguard Certification Program***. The program utilizes **Fleetschool**, a newly improved online training center consisting of multiple courses to gain knowledge and become a certified Fleetguard product user. This program was specifically designed with the needs of the distributor (inside/outside) salesperson in mind. An investment of less than 15 minutes--the average time required to complete each module--will make you a filtration expert in the eyes of your customers. Additionally, Fleetschool training is now available in eight languages (English, French, German, Italian, Mandarin, Portuguese, Russian and Spanish).

Level Two Courses include:

- **Cummins Engines 2010 Fuel Filtration**
- **CumminsFiltration.com Overview**
- **Crankcase Ventilation Product Line Training**
- **Fuel Cleanliness and Premature Injector Failure**

If you are new to Fleetschool, you also have the opportunity to complete the Level One Courses. The following modules are included:

- **Basics of Filtration**
- **Air Filtration**
- **Cooling System**
- **Fuel Filtration**
- **Lube Filtration**

This technical training and certification provides multiple advantages:

- **Easy online completion accessed from any location**
- **Knowledge of the latest maintenance information**
- **Troubleshooting tips to protect an integrated engine system**
- **Partnership with customers to help reduce downtime and minimize operator hassles**
- **Increase your product knowledge**
- **Email updates on new courses as created**

For additional information about Fleetschool, please contact your Fleetguard Sales Representative.
